

Journal of Neurotrauma

- Letter: Comments on “Acupuncture Treatment for Chronic Post-Traumatic Headache in Individuals with Mild Traumatic Brain Injury: A Pilot Study”
- Response to the Letter to the Editor: “Comments on ‘Acupuncture Treatment for Chronic Post-Traumatic Headache in Individuals with Mild Traumatic Brain Injury: A Pilot Study’”
- Prediction of Mental Health Complications Following Mild Traumatic Brain Injury
- Outcomes and Challenges in Treating Acute Subdural Hematoma in Older Adults with a GCS Score of 3–5: A Nationwide Retrospective Analysis in Korea
- Mild Traumatic Brain Injury Impairs Fear Extinction and Network Excitability in the Infralimbic Cortex
- Neuroimaging Characterization of Acute Traumatic Brain Injury with Focus on Frontline Clinicians: Recommendations from the 2024 National Institute of Neurological Disorders and Stroke Traumatic Brain Injury Classification and Nomenclature Initiative Imaging Working Group
- Marking a New Age in Characterization of Acute Traumatic Brain Injury: The National Institute of Neurological Disorders and Stroke Traumatic Brain Injury Classification and Nomenclature Initiative
- Retrospective Identification and Characterization of Traumatic Brain Injury—Recommendations from the 2024 National Institute of Neurological Disorders and Stroke Traumatic Brain Injury Classification and Nomenclature Initiative Retrospective Classification Working Group

Es el buque insignia de las revistas de Neurotraumatología.

Revisada por pares, publica los últimos avances tanto en la investigación clínica y de laboratorio de lesión cerebral y medular traumática.

Editor en jefe 2013

John T. Povlishock, director del Departamento de Anatomía y Neurobiología en la Universidad Virginia Commonwealth University (VCU) y director del Centro Asociado de Estudios de la lesión cerebral.

También profesor de neurocirugía en VCU. Sus intereses de investigación se centran en la lesión cerebral traumática, sus consecuencias neuronales y vasculares y sus modificaciones terapéuticas potenciales.

Editor adjunto

W. Dalton Dietrich, III, PhD, The Miami Project to Cure Paralysis, University of Miami; and other leading investigators. View the entire editorial board.

ISSN: 0897-7151 • 24 Issues Annually • Online ISSN: 1557-9042
